

# Make your aesthetic goals a reality

Dr. Radeka D.M.D. has been practicing cosmetic and general dentistry for almost 20 years and was among the first dentists to use Botox to enhance beauty and relieve pain for her clients. The introduction of Botox and Dermal Fillers into her practice was the spark that ignited the flame and in 2017, The Art of Ageless Aesthetics was created.

Dr. Radeka continually strives to learn the most natural and advanced methods to fight aging. With that knowledge she has joined forces with the Founder of Lustre Skin Boutique, Jennifer Clower. Jennifer's focus on skincare is organic and cosmeceutical, which makes their partnership a natural transition.

With their combined 40 years of experience in the cosmetic field, their shared vision is to create an exclusive club where members can be informed, educated and treated with custom treatment plans that meet the individual's goals.

## Microneedling

Reduce the appearance of fine lines and wrinkles with this minimally invasive treatment.

Results include:

- Improved texture & firmness
- Reduction in scars, especially acne scarring
- Reduction in pore size
- Reduction in stretch marks
- Stimulation of body's natural healing process

### Combine with PRP for Improved Results

Turn back the hands of time with this revolutionary new technology that uses your blood's own rich platelets which are concentrated with growth factors. Primarily used in sports medicine to heal ligaments and muscles, PRP treatment has spread to treating hair loss and skin rejuvenation. Dr. Radeka uses the Harvest® SmartPrep® Processing system, which has the highest yield of platelets out of all hospital grade devices. PRP promotes cell growth and restores collagen and results are seen immediately.

Clients will be provided a thorough consultation to evaluate individual concerns. PRP can be combined with serum injections such as hyaluronic acid (100% pure HA) in addition to microneedling and stem cell therapies. Multiple sessions are recommended for best results and are discounted with our **Fight Aging Club Exclusive Membership Rates**.

## PDO ThreadLift

Targeting areas on your face that need increased volume or "Lift", PDO (Poly Diaxanone) is absorbable suture thread that is inserted under the dermis in areas that would normally require fillers or a face lift, but without the invasiveness.

### Lasts 4 Times Longer than Fillers at a Fraction of the Cost

PDO ThreadLift is ideal for cheeks, nasiolabial folds, corners of mouth/marionette line and neck.

## Kybella/ Compounded PC/DC

This FDA approved method of destroying targeted areas of unwanted fullness under the chin contains deoxycholic acid, which helps the body absorb fat cells.

Depending on severity, this non-invasive treatment typically requires multiple injections with noticeable results lasting for years.

## Botox

One of the most popular treatments in the field of cosmetic procedures, Dr. Radeka uses her vast knowledge of facial musculature to achieve symmetry and reduce fine lines while providing preventative maintenance by freezing areas of concern (typically forehead, crows feet and areas in the upper half of the face)

### New Improved You

## Dermal Fillers

Non-surgically rejuvenate facial volume loss or lack of plumpness in areas such as the lips and cheeks with several options from Juvederm®, Restalyne® or Belotero. Book a consultation to determine which selection suits your needs.

*"Dr. Radeka has transformed my skin to the next level of combat against age and the elements. She has taken me out of my comfort zone and gave my face new life by removing a decade of wear."*
